

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505P)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

7969-429

Date of Issuance:

5/22/19

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

PT Alpine II Pressurized Fly Bait

Name and Address of Registrant (include ZIP Code):

Kerry Sosa, Product Registration Manager, Regulatory Affairs  
BASF Corporation  
26 Davis Drive  
Research Triangle Park, NC 27709-3528

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Sincerely,

Gene Benbow, Product Manager 7  
Invertebrate & Vertebrate Branch 3  
Registration Division (7505P)  
Office of Pesticide Programs

Date:

5/22/19

2. You are required to comply with the data requirements described in the DCI Order identified below:
  - a. Dinotefuran GDCI-044312-1147

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: <http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

3. Make the following label changes before you release the product for shipment:
  - Revise the EPA Registration Number to read, “EPA Reg. No. 7969-429.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated May 22, 2018

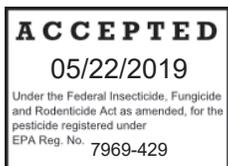

If you have any questions, please contact Dee Colby by phone at 703-347-8657, or via email at [colby.deanna@epa.gov](mailto:colby.deanna@epa.gov)

## HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also call 1-800-832-HELP for emergency medical treatment information.

## Precautionary Statements

### Personal Protective Equipment (PPE)

#### Applicators and other handlers must wear:

- Long pants
- Shoes plus socks

### Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas.

**DO NOT** apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. **DO NOT** contaminate water when disposing of equipment washwater or rinsate.

This product is highly toxic to bees and other pollinating insects exposed to direct treatment or residues on blooming crops or weeds. **DO NOT** apply this product or allow it to drift to blooming crops if bees or other pollinating insects are foraging in the treatment area.

### Physical or Chemical Hazards

**CONTENTS UNDER PRESSURE. DO NOT** use or store near heat or open flame. **DO NOT** puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

## Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Apply only in areas that are out of reach of children and pets.

### Use Restrictions

- **DO NOT** apply to surfaces that may reach excessive temperatures. Examples include portions of stoves, lighting above food preparation areas, ovens, grills, fume hoods, steam tables, toasters, fryers, dishwashers, and hot water pipes.
- **DO NOT** apply directly into any electronic equipment or areas where electrical short circuit could occur.
- **DO NOT** use in aircraft cabins; use in cargo areas only.
- **DO NOT** apply in areas that are frequently cleaned.
- **DO NOT** contaminate food, feed stuffs, or water supply.
- **DO NOT** apply directly on food preparation surfaces or dining surfaces where foods for consumption may come in contact.

- **DO NOT** contaminate food preparation surfaces, kitchen utensils, dishes, or food/feed storage containers.
- Cover food/feed contact surfaces and cooking utensils in treatment area before treatment or thoroughly clean after treatment and before using.
- Remove animals or treat in areas where animals are not present. **DO NOT** apply to animals. **DO NOT** allow insecticide to drift onto animals. **DO NOT** contaminate milk, food, or drinking water.
- **DO NOT** allow treatment to drip or run off of surfaces.

## STORAGE AND DISPOSAL

**DO NOT** contaminate water, food, or feed by storage or disposal.

### Pesticide Storage

Store in a cool, dry area away from heat or open flame and inaccessible to children.

### Pesticide Disposal

Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representatives at the nearest EPA Regional Office for guidance.

### Container Handling

**DO NOT** puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

## In Case of Emergency

In case of large-scale spill of this product, call:

- CHEMTREC 1-800-424-9300
- BASF Corporation 1-800-832-HELP (4357)

In case of medical emergency regarding this product, call:

- Your local doctor for immediate treatment
- Your local poison control center (hospital)
- BASF Corporation 1-800-832-HELP (4357)

## Product Information

- For use in food/feed handling establishments

{Note to PM: Italicized text enclosed in “{ }” is information for the reviewer and not part of the label.  
<Angle bracketed information is optional text.> Text within angle brackets and separated by “/” denotes and/or options.}

---

## Indoor Application Instructions

---

Apply as a spot treatment, band application, or removable bait placement to nonporous surfaces. Follow instructions for specific application methods. This product may not adhere to dusty or greasy surfaces. Reapply when bait is no longer visible and/or reinfestation occurs.

### Spot Treatment

- Apply to nonporous, indoor surfaces where flies congregate, roost, and feed on garbage receptacles and lids; refuse containers; recycling bins; behind vending machines; under bars and tables; and on walls.
- Lightly spray (to avoid runoff or dripping from target area) no further than 12 inches (30 cm) from target area at a rate of 2 linear feet per second.

### Band Application

- Apply to nonporous, indoor surfaces where flies land, roost, and/or infest including beam edges, receptacle edges, table or bend edges, around windows and window frames.
- Spray no further than 6 inches (15 cm) from target area at a rate of 2 linear feet per second.

### Removable Bait Placements

- Spray a nonporous object no smaller than 6 square inches.
- Object may be made of plastic, metal, or other suitable material.
- All bait placements must be clearly marked: “Fly Bait. Do not touch.”
- Place in areas conducive to fly activity and out of reach of children and domestic and farm animals.
- Remove unwanted bait placements and discard.

---

## Food/Feed Handling Establishments

---

Food/feed handling establishments are places other than private residences in which food is held, processed, prepared, or served, including those operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs.

Applications of this product in food/feed areas of food/feed handling establishments may be made as a spot treatment, band application, or removable bait placement.

- **Food/feed areas** include areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage, and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) are also considered food areas.
- **Non-food/feed areas** include garbage rooms, lavatories, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage areas (after canning or bottling).

Apply to nonporous, indoor surfaces such as painted baseboards, under elements of construction, stainless steel equipment, shelving, machinery, storage areas, tables, and chairs. Follow directions in **Indoor Application Instructions** section.

Avoid contamination of food/feed or food/feed contact surfaces. Remove or cover food/feed, dishes, utensils, food processing equipment, and food preparation surfaces in the treatment area or wash them before use.

---

## Poultry, Livestock and Domestic Animal Housing Facilities

---

For indoor use in animal housing structures. Remove animals or apply where animals are not present. **DO NOT** apply to lactating or food animals. **DO NOT** apply or allow insecticide to drift onto animals. **DO NOT** allow animals to enter treated areas until surfaces are dry. **DO NOT** contaminate milk, food, or drinking water. **DO NOT** apply to milking equipment in dairy areas.

- Applications of this product may be made as a spot treatment, band application, or removable bait placement.
- For best results, begin spraying at start of fly season and reapply during periods of heavy activity.
- Apply where flies land, roost, and/or infest including on ceilings, screens, and upper corners and around windows, doors, and light fixtures and in areas such as hog barns, horse barns, empty chicken houses, rabbit hutches, and milk houses.

{Note to PM: Italicized text enclosed in “{ }” is information for the reviewer and not part of the label.  
<Angle bracketed information is optional text.> Text within angle brackets and separated by “/” denotes and/or options.}

### Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as environmental conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION (“BASF”) or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer. BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW: (A) BASF MAKES NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF FITNESS FOR PARTICULAR PURPOSE OR MERCHANTABILITY, (B) BUYER’S EXCLUSIVE REMEDY AND BASF’S AND SELLER’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT, AND (C) BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.** BASF and the Seller offer this product, and the Buyer and User accept it, subject to these **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
